

**AMENDMENTS TO THE CLAIMS:**

Please amend claims 3, 7-9, 15, 16, 22-24 and 27-30 as follows and cancel claims 1, 2, 4-6, 10-14, 19-21, 25 and 26, without prejudice or disclaimer.

1. (Cancelled)

2. (Cancelled)

3. (Currently Amended) ~~The combination of claim 1~~ An untethered combination of a pair of eyeglasses and a light source, comprised of:

eyeglasses having a front frame portion and arms extending therefrom; and

a light source positioned on one of the arms;

wherein the light source is positioned at a distal end of the arm.

4-6. (Cancelled)

7. (Currently Amended) ~~The combination of claim 1~~ An untethered combination of a pair of eyeglasses and a light source, comprised of:

eyeglasses having a front frame portion and arms extending therefrom; and

a light source positioned on one of the arms;

wherein the light source is positioned in a recess of the arm.

8. (Currently Amended) ~~The combination of claim 1~~ An untethered combination of a pair of eyeglasses and a light source, comprised of:

eyeglasses having a front frame portion and arms extending therefrom; and

a light source positioned on one of the arms;

wherein the light source is positioned in a cavity within the arm.

9. (Currently Amended) ~~The combination of claim 1~~ An untethered combination of a pair of eyeglasses and a light source, comprised of:

eyeglasses having a front frame portion and arms extending therefrom; and  
a light source positioned on one of the arms;

wherein the light source is positioned to shine towards the distal end of the arm.

10-14. (Cancelled)

15. (Currently Amended) ~~The combination of claim 12~~ In combination, a pair of  
eyeglasses and a discrete writing instrument, comprised of:

eyeglasses having a front frame portion and arms extending therefrom; and  
a discrete writing instrument stored on one of the arms;

wherein one of the arms is provided with an opening into a cavity in the arm, the cavity  
being shaped to receive a writing instrument, wherein the writing instrument is stored; and

wherein a side of the arm is provided with a groove that opens into the cavity, wherein  
the writing instrument is further comprised of a neck attached at a first neck end to the writing  
instrument and at a second neck end to a bead, wherein the neck is dimensioned to reside within  
the groove when the writing instrument is positioned within the groove, and the bead is situated  
outside of the groove.

16. (Currently Amended) ~~The combination of claim 10~~ An untethered combination of a  
pair of eyeglasses and a light source, comprised of:

eyeglasses having a front frame portion and arms extending therefrom; and  
a light source positioned on one of the arms;

wherein the light source is positioned to shine towards the proximal end of the arm; and

wherein one of the arms is provided with a container on one of its sides for storing the a  
writing instrument.

17. (Original) The combination of claim 16 wherein the container is provided with an  
opening that faces towards a distal end.

18. (Original) The combination of claim 17 wherein the container is provided with an

opening that faces towards a proximal end.

19-21. (Cancelled)

22. (Currently Amended) ~~The combination of claim 19~~ In combination, a pair of eyeglasses and a discrete screw driver, comprised of:

eyeglasses having a front frame portion and arms extending therefrom; and  
a discrete screw driver stored on one of the arms;  
wherein the screw driver extends from the distal end of the arm.

23. (Currently Amended) The combination of claim 22 wherein ~~the~~ a plug end covers the screw driver.

24. (Currently Amended) ~~The combination of claim 19~~ In combination, a pair of eyeglasses and a discrete screw driver, comprised of:

eyeglasses having a front frame portion and arms extending therefrom; and  
a discrete screw driver stored on one of the arms;

wherein a side of the arm is provided with a groove that opens into the cavity, wherein the screwdriver is further comprised of a neck attached at a first neck end to the screwdriver and at a second neck end to a bead, wherein the neck is dimensioned to reside within the groove when the screwdriver is positioned within the groove, and the bead is situated outside of the groove.

25. (Cancelled)

26. (Cancelled)

27. (Currently Amended) ~~The combination of claim 25~~ In combination, a pair of eyeglasses and a discrete screw driver, comprised of:

eyeglasses having a front frame portion and arms extending therefrom; and

a discrete screw driver stored on one of the arms;  
wherein one of the arms is provided with a container on one of its sides for storing the  
screwdriver; and  
wherein the container is provided with an opening that faces towards a proximal end.

28. (Currently Amended) ~~The combination of claim 1~~ An untethered combination of a  
pair of eyeglasses and a light source, comprised of:  
eyeglasses having a front frame portion and arms extending therefrom; and  
a light source positioned on one of the arms;  
wherein at least one of the arms is reversible.

29. (Currently Amended) ~~The combination of claim 11~~ In combination, a pair of  
eyeglasses and a discrete writing instrument, comprised of:  
eyeglasses having a front frame portion and arms extending therefrom; and  
a discrete writing instrument stored on one of the arms;  
wherein at least one of the arms is reversible.

30. (Currently Amended) ~~The combination of claim 19~~ In combination, a pair of  
eyeglasses and a discrete screw driver, comprised of:  
eyeglasses having a front frame portion and arms extending therefrom; and  
a discrete screw driver stored on one of the arms;  
wherein at least one of the arms is reversible.
